Hancock County RSVP honors local first-responders on anniversary of 9/11

Senior volunteers deliver about 150 'goodie bags'

BY CASSANDRA FAVRE
STAFF WRITER

Volunteers with Hancock County RSVP on Tuesday delivered about 150 goodie bags to first-responders throughout Hancock County.

This is the first year members of the Retired and Senior Volunteer Program gathered items to show appreciation for the area's first responders, RSVP Project Director Linda Pitts said.

"Sometimes we take it for granted that that they're always there," Pitts said. "We want them to know that the community cares about them."

RSVP is a volunteer non-profit program for people 55 and older, she said.

Volunteers spread their time and efforts between organizations such as the Hancock County Food Pantry, Hope Haven Children's Advocacy Center, Bay St. Louis City Hall, the Bay-Waveland School District, Hancock County Chamber of Commerce, Hancock County Library System, Hancock Resource Center, Bay St. Louis Little Theatre, The King's Kitchen, St. Clare and Waveland Police

Department, to name a few, Pitts said.

The group currently has about 100 volunteers and Pitts said they are always seeking more volunteers as well as places to volunteer.

For more information about RSVP, contact Pitts at 228-467-9073 or via email at hancockcountyrsvp@hotmail.com.

At approximately 6:20 a.m. on Thursday, the Mississippi Highway Patrol investigated a fatal crash which occurred on Interstate 10 eastbound, near the 23-mile marker in Harrison County - a mile west of the Menge Avenue exit.

The MHP has identified the man as 50-year-old Timothy Thompson of Boaz, Ala.

Hancock County Utility Authority adopts FY 2019 water and wasterwater budget

BY CASSANDRA FAVRE
STAFF WRITER

Last week, the Hancock County Utility Authority Board approved the FY 2019 water and wastewater budget.

HCUA Executive Director David Pitalo said he preferred to leave the water rate at \$.85 per 1,000 gallons for the year, which would allow for a "little extra money to put in the bank towards the painting."

James Lamy, Pearlinton's representative on the board, said he still has concerns about not budgeting funds for the tanks.

Pitalo said there's nothing currently budgeted for tank maintenance.

Mike Favre, Bay St.

Louis' board representative, asked Pitalo if he's looked into entering into an agreement with someone for maintenance.

"I've talked to a few people and what we need to do is put together a bid spec to go out and get this done," Pitalo said. "There are a number of companies that would do that. Instead of putting everything onto a contractor, why can't we bring in a independent inspector from all these contractors and have them tell us when they think it needs to be done."

Even though nothing can be added to this year's budget, the board agreed to discuss and work on a tank maintenance plan at the October meeting.

The board approved the water budget at \$.85 per 1,000 gallons.

The board also approved the wastewater budget of about \$2.6 million.

The next board meeting is scheduled for Oct. 4 at 4:30 p.m.

Mississippi Reports One New West Nile Virus Human Case

SEA COAST ECHO

JACKSON, Miss. – The Mississippi State Department of Health (MSDH) on Monday reported one new human case of West Nile virus (WNV), bringing the state's total to 31 so far for 2018. The reported case is in Attala County.

So far this year human cases have been reported in Adams (2), Attala, Calhoun (2), Copiah, Forrest (2), Harrison (2), Hinds (11), Itawamba, Jones, Lauderdale, Madison, Marion, Oktibbeha, Pearl River, Rankin, Walthall and Washington counties. In 2017, Mississippi had 63 WNV cases and two deaths.

Peak season for WNV is July through September in Mississippi, and State Epidemiologist Dr. Paul Byers said that while most people with WNV infection recover without any long-term problems, some develop a more severe infection that can lead to complications and even death – especially those over 50 years of age.

Byers reminds all Mississippi residents that they should take precautions against WNV, regardless of reports of human cases in specific counties.

Symptoms of WNV infection are often mild and may

Natural disasters cause much destruction around the U.S.

The destruction of properties by hurricanes just since the year 2001 has far surpassed those during the 20th century. Now what may be a Category 5 hurricane when it makes landfall is bearing down on the Carolinas.

One of the big reasons has been the increase of population and low structures in areas along lower elevations.

If you have not experienced the destruction of your residence by flooding waters, you are very lucky.

In addition to hurricane destruction, fires too can cause havoc for a family.

One of the good things that has changed is the quick response of volunteers and governmental agencies.

Myself, I can recall the lack of response in our area following the 1947 hurricane. My family received a single dollar from any governmental agency.

Hurricanes, forest fires and tornadoes have really changed the attitudes of so many people, in addition to governmental agencies.

Since the beginning of mankind, there have been natural disasters.

But the loss of a life is something that cannot be fixed or repaired.

The storms of nature I have witnessed have been many and I hope and pray that no one has to feel nature's furies.

We all have to thank God or whomever we believe in for keeping us safe from nature, no matter where we live.

There is enough destruction in our world that we do not need additional destruction by man-made wars.

Whenever a life is lost, that is the end of their stay in this universe.

One cannot live forever as there is only one life that has been created by a superior being.

I feel for those who are volunteers, no matter the disaster.

Cuevas Quotes

by **Ellis Cuevas**
Publisher Emeritus

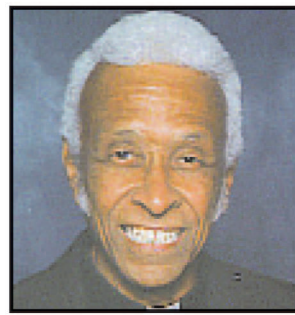

We believers have a lot to brag about

What does your daddy do?" In several similar formulations, folks like to question us about our father. Sure, there may be questions about certain aspects of our earthly father who is vulnerable in some ways as all of us humans are.

Nevertheless, I am partial to that nifty little song, Hang On, Sloopy! Although Sloopy lives in a bad part of town and everybody tries to put her down, her true love sings, "Well, Sloopy, I don't care what your daddy do, 'Cause you know, Sloopy girl, I'm in love with you." Of course, everyone knows that love trumps everything.

However, when it comes to our heavenly Father or Jesus or their Holy Spirit, there is nothing negative to be said or imagined. Whether in our thoughts, words or actions, not even the best is good enough for that wonderful, hallowed Trinity. They are simply the best of all that is good, but nothing of what is defective or evil. Can you blame us if they engender in us a permanent attitude of spiritual boasting?

While agnostics stay mired in their never-ending "To doubt or not to doubt," and atheists roll the highest odds of all

REFLECTIONS ON LIFE by **Fr. Jerome Ledoux, SVD**

time over the very existence of the Almighty,

we brush aside even the brain trust like pantheistic-atheist Albert Einstein. Some seem to fear that we don't have a once-in-a-lifetime brain like Einstein on our side

in the winner-take-all sweepstakes of "Who is your Creator?" But we have nothing to fear, since the Lord is our Light and our Salvation. We have only pity for Einstein, and we invite those of like mind with him to join us in our moment-to-moment, hourly, daily thanksgiving for our God who is the Creator of the world brain trust, as well as of the countless angels and of the mind-numbing galaxies of the universe.

Recent studies show that our galaxy, the Milky Way, is about

200,000 light years in width, composed of an estimated 200 billion stars. Traveling at the speed of light – 186,282 miles a second – one would have to live 200,000 years to cross our galaxy. Yet, there are many galaxies much larger than our Milky Way. The Hubble telescope shows us 100 billion galaxies, but astrophysicists expect that number to double with technological improvement of telescopes. Our poor minds have already reached the point where they cannot be blown anymore, trying to process the enormity of measuring galaxies 13.3 billion light years distant.

So how often do we make holy boasts about our Father/Creator? Do we answer those who ask about our heavenly Father, "What does your Father/Daddy do?" We do indeed oblige them by singing proudly about our supergalactic Father,

I cannot make a world and hold it in my hands,

I cannot make the lightning flash across the land;

I cannot take a piece of clay and mold it into man,

But I have a Father, I have a Father who can.

But we are not snobs. To the contrary, we want you unbelievers and

unfaithful believers to be able to brag and sing along with us. If you are not already converted and totally dedicated to Jesus Christ, we are eagerly waiting for you to join us in our sojourn as we pilgrims make our way toward our Father's house. So, folks, the more the merrier as we add more souls to the Communion of Saints.

Punctuating our role as unworthy servants, we read in 2 Corinthians 4:5 & 7, "We do not preach ourselves but Jesus Christ as Lord, and ourselves as your slaves for the sake of Jesus... But we hold this treasure in earthen vessels, that the surpassing power may be of God and not from us."

Imagine that, folks! Our main boast concerning our way of life is that we are servants. Thank God, in our spiritual growth we have moved beyond the apostles who were smitten with the apostle complex that drove them to inquire often and urgently who was the most important, who was the greatest and who was first.

We live in a world of braggarts and boasters who cannot satisfy their

National Fire Prevention Week will be observed October 7-13, 2018. This year's theme is "Look. Listen. Be aware. Fire can happen anywhere™." In a fire, seconds count. This can mean the difference between residents of our community escaping safely from a fire or having their lives end in tragedy. All households need to develop an escape plan that is practiced twice a year, one at night and one during the day, using different ways out. Once you get outside, stay outside. ber the Great Chicago Fire, which occurred in 1871. It killed more than 250 people, left 100,000 homeless, destroyed more than 17,400 structures, and burned more than 2,000 acres. The fire began on October 8, but continued into and did most of its damage on October 9, 1871.

While the Great Chicago Fire was the best-known blaze to erupt during this fiery 2-day period, it wasn't the largest. That distinction goes to the Peshtigo Fire, the most destructive forest fire in American history. The fire, which also occurred on October 9, 1871, roared

through Northeast Wisconsin, burning down 16 towns, killing 1,152 people, and scorching 1.2 million acres before it was done.

The Peshtigo Fire began when several railroad workers clearing land for much needed tracks unintentionally started a brush fire. Soon the fast moving flames were raging across the land. It was the small town of Peshtigo, Wisconsin that suffered the worst damage. Within an hour, the entire town had been destroyed.

Red Snapper season to reopen September 14

SEA COAST ECHO

BILOXI, Miss. – The recreational fishing season for Red Snapper will reopen in Mississippi on Friday, Sept. 14, 2018 at 12:01 a.m. and close on Sunday, Sept. 16, 2018 at 11:59 p.m.

Harvest totals from the Tails 'n Scales reporting system indicate the annual catch target for the private recreational fishery is projected to be reached by the end of the weekend on Sunday, Sept. 16. However, the MDMR has the authority to adjust the recreational Red Snapper season if finalized landings indicate additional harvest would remain within the quota allowed under the Federal Exempted Fishing Permit or for any other reason such as inclement weather or due to unforeseen circumstances.

A new version of the Tails n' Scales

app (3.31) is now available for download from the Apple App Store and Google Play. Please download this new version prior to using the Tails n' Scales app. New features include an informational banner and the ability to create new trips only during a specified time frame. fires, but some are attributed to lightning from electrical storms. These fires can spread quickly, igniting brush, trees and even homes. We need to be especially careful when using campfires or bonfires.

Without proper precautions, campfires are potentially dangerous. You need to know how to properly build one, how to keep it going, and how to properly

extinguish it. Most of these fires burn out of control in one of two basic ways: on the ground or in the trees. Dead leaves or pine needles on the ground may ignite from direct contact or airborne embers or sparks may ignite overhanging branches.

No fire should be lit near trees, tents, or other fire hazards. Never leave a fire unattended. You should always have sand and/or water on hand to smother the fire if it does get out of control. Water is more efficient and effective in extinguishing a fire. The water should be poured until all

hissing noises stop. Then you need to stir the ashes with a stick to make sure the water has penetrated all layers.

If water is unavailable, sand may be used to smother the fire. Once the fire has been covered thoroughly with sand, you will then need to stir the ashes with a stick to make sure it has been fully extinguished.

Don't forget safety at home and while you are enjoying the great outdoors and having fun this fall.

which can lead to paralysis, coma and possibly death.

The MSDH suggests the following precautions to protect yourself and your family from mosquito-borne illnesses:

- Use a mosquito repellent with an EPA-registered ingredient such as DEET while you are outdoors.

- Remove all sources of standing water around your home and yard to prevent mosquito breed-

- Wear long, loose clothing to cover the arms and legs when outdoors.

- Avoid areas where mosquitoes are prevalent.

The Day God Took You Home

It's been ten long years, We cried many of tears
A million times we cried, If love alone could have saved you
You never would have died. In life we loved you dearly,
In death we love you still. In our hearts you hold a place,
No one else can ever fill. It broke our hearts to lose you,
But you didn't go alone. Part of us went with you,
The day God took you home.

Tigers, Pirates & Rocks all suffer losses on gridiron

BY JOSEPH W. GEX,
II
STAFF WRITER

For the second consecutive week, all area teams in action suffer a loss on the gridiron. The Bay High Tigers (0-4) traveled to Monticello to take on the Lawrence County Cougars. The Tigers limped home after the 20-7 loss.

The Pass Christian Pirates (1-3) stumbled 21-0 against the West Harrison Hurricanes last Friday while the St. Stanislaus Rock-a-chaws (0-3) fell to the Yellow Jackets of St. Martin 22-7.

The Tigers and the Cougars were knotted at the half 7-7; however, the

Cougars cruised in the second half to the win.

Dominic Anderson led the way on offense for Bay High with 17 carries for 49 yards and a touchdown. On defense, Cade Compretta tallied 12 tackles while Larry James added 11 tackles with a sack and a tackle for loss.

This Friday Bay High is set to host South Jones which upped their record with a 28-21 victory over NE Jones last Friday.

John Mitchell leads the charge for South Jones with 58 carries for 495 yards and two scores while Chad Moses leads the way on defense with 20 tackles.

The Hancock Hawks (2-1) were idle last week and did not play. This Friday

the Hawks host #16-ranked Lakeshore, LA. Last year, Lakeshore beat Hancock 51-23 en route to the Class 5A state finals in Louisiana.

Caleb Garcia paces Hancock's offense with 493 yards passing and two touchdowns on 28-of-47 passing. Blake Comeaux leads the rushing attack with 364 yards rushing on 51 attempts with five touchdowns. Brooks Rayburn is proving why he

us a big target on the edge with 12 receptions for 228 yards and a touchdown. On defense, Trenton Ladner has 32 tackles on the season.

The Pass Christian Pirates (1-3) fell 21-0 last week against the West Harrison Hurricanes. No

individual stats were available from the game.

This week the Pirates take on Sumrall (4-0) who defeated Enterprise 40-7.

Dannis Jackson leads the Sumrall offense with 479 yards and four touchdowns on 31-of-43 passing and 348 yards rushing on 36 attempts and four touchdowns.

Ashanti Cocroft anchors the defense with 28 tackles including five tackles for loss.

The St. Stanislaus Rock-a-chaws (0-3) are still searching for their first win of 2018 after a 22-7 loss to St. Martin Yellow Jackets (3-1).

The Rocks were led by Delvin Henry with 101 yards and a touchdown on

17 carries. Henry now has 457 yards rushing in three games for the Rocks. Dallas Payne led the receivers with four receptions for 97 yards.

Hancock sweeps Oak Grove, OLA stumbles

BY JOSEPH W. GEX,
II
STAFF WRITER

The area was inundated with information and speculation about Tropical Storm Gordon earlier this week only for the storm to be a virtual no show as it made a mast second turn eastward sparing Hancock County. However, the mere chance of the storm coming our way forced our emergency management officials to do the right thing and call for closures of certain operations with schools being one of them. With the closure of the schools on Tuesday and Wednesday, the myriad of games and practices sched-

uled for those days were also affected. So this past week, the only volleyball action took place on Thursday evening.

The Hancock Lady Hawks (8-6) swept the Oak Grove Lady Warriors 25-21, 25-19 and 25-15 behind the stellar play of Harleigh Lafontaine. She tallied 28 assists, nine points and nine digs in the win over Oak Grove. While setters in a one-setter offense will have higher totals, Lafontaine recorded her numbers while working in a two-setter offense.

Maleah Austin led the team with 12 kills while Chloe Swilley tallied nine kills.

The Our Lady Academy Crescents (10-8) stumbled

against the Ben Franklin Falcons of New Orleans on Thursday falling 25-21, 19-25, 17-25 and 16-25.

Rebecca Walk led the Crescents with 23 kills, two aces, three blocks and four digs followed by Camille Cottone with nine kills and five digs. Margaret White added four kills, two aces and five digs while Chloe Cornell chipped in four kills. Ashley Bulot tallied 34 assists.

The Bay High Lady Tigers (1-8) played Long Beach on Thursday but game details were not available.

In upcoming action, the Lady Tigers travel to Hattiesburg on Thursday, September 13th and host

Pass Christian on Tuesday, September 18th. The Lady Hawks travel to Biloxi on Thursday and Gulfport on Tuesday. The Crescents host Chalmette on Thursday and travel to

And Mississippians count on their newspapers to keep apprised of public notice advertising.

Half of Mississippi adults recall reading or seeing public notice advertising in a local or state newspaper. And almost half (46%) of adults who have seen public notice advertising prefer to receive them in a printed newspaper, much higher than any other source. Most Mississippians (87%) say keeping the public informed through public notices and legal advertising is an important requirement for government agencies. And the pre-

ferred method of receiving these notices is in a printed newspaper along with their associated websites. According to a 2013 Advertising and Media Use Survey*, legal ads in printed newspapers have a much higher credibility than other media. Over 1.5 million Mississippians read their local newspaper. Whether in print, online or on the go, newspapers are the leading source of information for Mississippi.

Blasting Into Orbit at PCES

SEA COAST ECHO

The fifth grade Explore Lego Pirates at PCES were “over the moon” to have Seth Johnson from NASA’s office of STEM engagements come in and

speak about all things concerning space, space travel, and the effects of space travel on humans. The PCES fifth grade gifted program has 4 First Lego League (FLL) Robotics teams, and it just so happens that the

FLL theme this year is “Into Orbit”! So, they turned to the experts, NASA! Mr. Johnson spent time answering the students burning space questions about topics of interest to their robotics teams like: the training

that astronauts go through, the different types of space suits astronauts wear, and how astronauts’ health and wellness is monitored and maintained in space. The students were very excited about the wealth of

information that Mr. Johnson was able to provide. They were able to apply all they learned to help in the development of a creative and innovative solution to the physical or social problems faced by

humans during long duration space exploration within our Sun’s solar system!

Hancock Whitney to Host Inaugural ‘Splash Bash’ Benefiting Mississippi Aquarium

September 21 celebration supports world-class aquatic attraction being built in Gulfport

BY GEOFF BELCHER
News Editor

The Mississippi Aquarium -- now under construction in Gulfport -- won't officially open until late 2019 or early 2020, but the aquarium board and Hancock Whitney Bank have partnered to generate a little excitement for the facility this month.

Tickets are on sale now for the inaugural Hancock Whitney Splash Bash, scheduled Friday, Sept. 21, from 7-11 p.m. at Gulfport's beachfront Barksdale Pavilion at Jones Park.

The event benefits Mississippi Aquarium and provides guests a night of coastal cuisine, cocktails, and live music from Chinatown, a high-energy rock band packing venues across the country.

"It goes back to the original commitment from Mayor Billy Hewes," Mississippi Aquarium CEO David J. Kimmel said last week. "He said if it's going to be successful, it has to be a public-private partnership."

"We're kind of hoping (the Splash Bash) becomes the social event of the year in this region," Hancock Whitney MS Regional President Keith Williams said. "We're going to have food, we're going to have music, and we're going to

present a technicolor underwater world with some live creatures and some large sea creatures."

"We all work together, we don't compete with one another, so people from the Columbus Zoo Ambassador Animal Program are bringing down some South African penguins" for the Splash Bash," Kimmel said. "They'll also be bringing in a sloth and a three-month-old cheetah and some other animals and there will be some surprise announcements about what people will see in the aquarium that we'll announce during the Hancock Whitney Splash Bash."

"The tickets are on sale and everybody can go to msaquarium.org and the cost of those individual tickets is \$100," Williams said. "Chinatown is going to be the band. We've got a cut rate for what we call our young professionals, 21-35, who can purchase tickets for \$75. Although the aquarium, when it's open will be for all ages, we do ask that you be 21 years or older for the Hancock Whitney Splash Bash."

Guests can leave tuxedos and gowns at home, opting for more casual attire in coastal tones, Hancock Whitney CEO John Hairston said in a press release. Women can consider pants, casual dresses, or skirts with colorful acces-

sories; men, slacks with polo or button-up shirts. With September still among the warm months in South Mississippi, linen can also be appropriate for a cool, sophisticated look.

"We anticipate Hancock Whitney Splash Bash to become the premier annual philanthropic party on the Mississippi Gulf Coast," Hairston said. "Mississippi Aquarium will be another jewel in the Gulf Coast's crown—a top-notch attraction to educate and entertain local residents and visitors of all ages. This is a must-attend event for grownups on the Coast, with great food, music, and fun."

Williams said that although the aquarium -- and the Splash Bash -- will be in Gulfport, both are intended for everyone who lives in the state of Mississippi.

"This is a statewide center and this fundraising event that Hancock Whitney is doing, it's something that anyone in the state is welcome to attend," Williams said. "I certainly hope that anyone who is interested in the aquarium comes out for this."

Proceeds from Hancock Whitney Splash Bash help support Mississippi Aquarium's mission of fostering education, conservation, and community as well as promoting the Mississippi Gulf Coast's

reputation as a top regional tourist destination. This year's inaugural Hancock Whitney Splash Bash will be the first of what organizers see evolving as one of the area's most anticipated annual cultural fundraisers.

"This special event is integral to ensuring Mississippi Aquarium's ability to fulfill its mission as both a top visitor attraction and an aquatic education and research facility," Kimmel said. "This is going to be a world-class aquarium and a point of pride for the entire state of Mississippi. We can't wait to kick off the excitement at Hancock Whitney Splash Bash."

"The aquarium will be a great family and fun entertainment venue, and we are committed to education, conservation and the community. We are extremely appreciative to Keith Williams, John Hairston and the entire Hancock Whitney family for really getting behind the effort and making a commitment to the aquarium."

Kimmel said anyone interested in the Mississippi Aquarium can go to the website, www.msaquarium.org, to watch daily programs on the facility. The website includes a live camera feed of the facility's construction, plus an events calendar and career platform.

Hancock Whitney

Splash Bash sponsorships and individual tickets for the all-inclusive party are available. Visit <https://www.msaquarium.org/splash-bash> for details about sponsorship levels and ticket prices.

money

[muhn-ee], *n.*

1. any circulating medium of exchange, including coins, paper money, and demand deposits.

You have to spend money to Make money.

This is a common English saying . It means that it's hard to make **money** in a business without investing some money in supplies, products, advertisement or other business expenses.

Who wants to hear that? Probably no one. The truth hurts.

Owning a business is tough. No one ever said it was easy. In owning a business, your goal is to be recognized and successful. Why put in all of the hard work to be basically “invisible”. You see ads that run regularly. These businesses are successful. They’re seen weekly whether it be to a flashy logo or an attractive female/male model. The point is that the business is getting noticed. A common phrase heard among salesman and ad representatives is this: “We don’t have the money to advertise”. Sorry to be blunt, but you probably won’t ever have “extra” **money** if you’re unknown. Advertisements in the newspaper can pay big dividends if they are targeted to the right markets and presented in a way that encourages readers to buy.

You need to **Know Your Audience**. While younger Americans aren’t the newspaper readers that their parents and grandparents are, print still offers a way of reaching key demographics. According to a study prepared for the Newspaper Association of America, 65.6 percent of respondents read the newspaper at least once in the past week, and that number rises to 72.6 percent of adults aged 55 and over. Print media is accessed by both genders, with 60.8 percent of each having read a newspaper over the past seven days. If those figures match your target marketing audience, **it makes sense to use print** to reach them.

Location, Location, Location... Location can’t be stressed enough. Newspapers offer the ability to target your ads to better reach a specific customer base. For example, if you’re selling sports equipment, advertising on TV during the NFL playoffs is likely cost-prohibitive and may reach many viewers with no intention of buying your wares. A small advertisement in your local sports section has the potential to catch the eye of football fans in your area, getting the local sports fans attention at a fraction of the cost. Make sure your ad is in the right spot in the paper. You’re likely to have better luck selling musical instruments in the entertainment section of the paper than in the business or food sections.
